Pan-India assessment platform launched

BS REPORTER

Bengaluru, 10 November

ERA Foundation, a not-for-profit body, has launched an assessment platform for graduate and under-graduate students seeking admission to universities.

The platform, christened Uni-GAUGE, offers an entrance testing platform for Indian

universities and student community. The score would be acceptable to institutions that would sign up with ERA. The partner universities will take Uni-GAUGE scores, but will have autonomy on their admission process.

The first 'Uni-GAUGE Post Graduate Medical and Dental 2015' will be held on February 15, 2015. This would be a pan-

India, on-line, computer-aided, multi-university examination, conducted in more than 30 cities; those cater to students across the country.

"Uni-GAUGE will offer computer-aided, pan-India entrance evaluation platform," said M R Jayaram, co-promoter of ERA Foundation, and chairman of Gokula Education Foundation.
